Normal Operations	Normal Operations	Normal Operations	Normal Operations

State Activation Level Change

Effective Thursday, 11/30/17, the State Operations Center has transitioned to a new activation level sequence.

In accordance with the 2017 edition of the State of California Emergency Plan (SEP) published on 10/01/17, Cal OES has changed our State Activation Level sequence to align with the Federal Emergency Management Agency (FEMA) and many of our local partners. The new Activation Levels apply to the State Operation Center and the Inland, Coastal and Southern Regional Operations Centers.

Activation Level	Conditions / Definition
Level 1	<ul style="list-style-type: none"> Catastrophic disaster, which requires comprehensive state-level response and/or assistance
Level 2	<ul style="list-style-type: none"> Large-scale disaster, requiring high amount of state involvement
Level 3	<ul style="list-style-type: none"> Small to Moderate Disaster/Pre-Planned Event
Normal Operations/Monitoring	<ul style="list-style-type: none"> Duty Officer Status Steady-state operations Warning Center maintains situational awareness

SITUATION SUMMARY

Cal OES EMAC Missions

2017-SOC-43430: Cal OES Individual Assistance (IA) Branch requested two (2) IA Coordinators in support of the 2017 October Statewide Fire Recovery efforts.

- Two (2) IA Coordinators from the State of Washington will provide support in a Joint Field Office, Local Assistance Center, or in the field as needed.
- Both IA Coordinators are scheduled to provide support from 11/27/17 – 12/23/17.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Today will be dry across the region with light winds, variable high cloudiness and warmer than normal temperatures. The next Pacific storm system will push rain onshore in the far north Saturday morning. By mid afternoon, light rain will reach many locations north of a line from Santa Rosa to Lake Tahoe. Gusty S-SW winds will develop in many areas. Peak gusts in high elevation and east side wind-prone locations Saturday afternoon could reach 30-40 mph and locally higher. Showers will continue mainly in the mountains Saturday night through midday Sunday.

Snow levels will begin to drop Saturday afternoon, and by Sunday morning they will be 2500 ft. in the north and 4500 ft. in the south. Rainfall equivalent totals will only be 0.25-1.00 inches in the NW mountains, 0.10-0.50 inches elsewhere in the mountains, and trace amounts to 0.20 inches in valleys. Some areas east of the Cascade-Sierra crest, south of the line from Santa Rosa to Truckee, and in the central and southern Sacramento Valley will not receive any precipitation at all from this system.

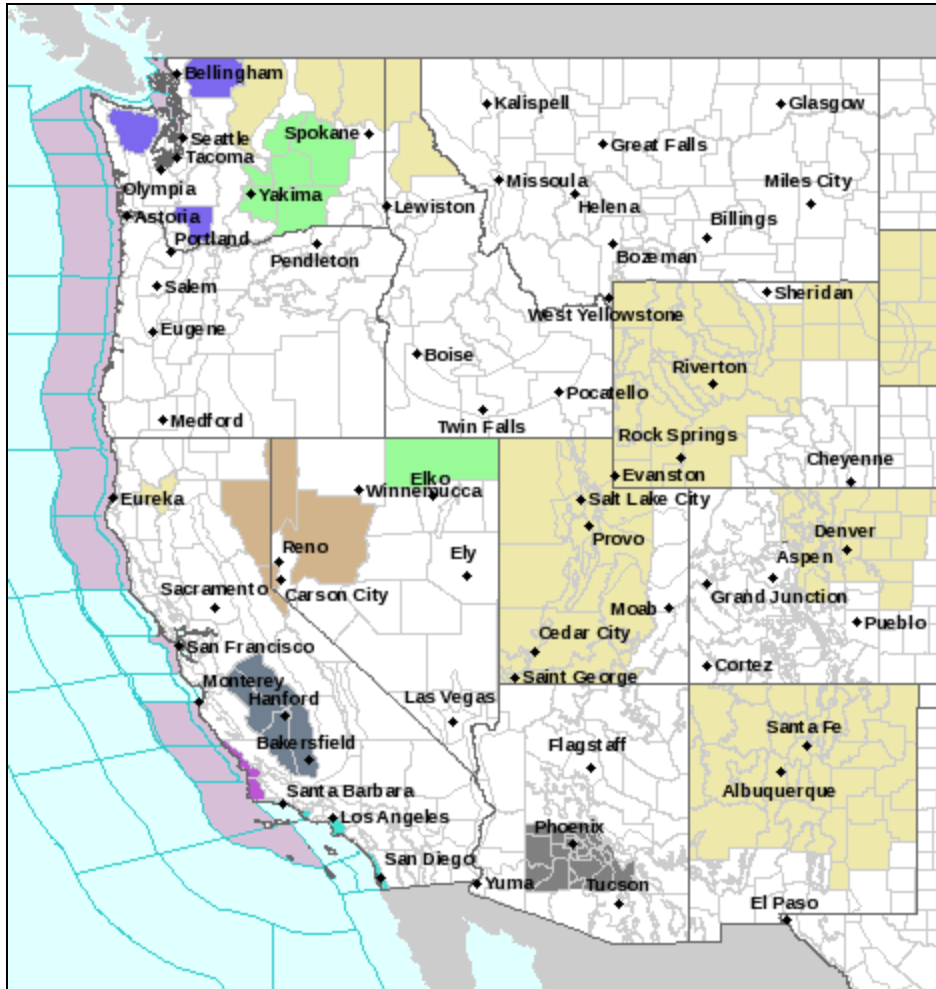

By Sunday afternoon a dry NW-NE surface wind pattern will develop. Northerly winds may gust to 25-35 mph in wind-prone locations Monday morning from the western Sierra slopes to the coastal mountains. Dry conditions with mainly night and morning N-NE winds and a gradual warming trend can then be expected for the next week or so.

SOUTHERN CALIFORNIA

A weak low pressure west of the Baja Peninsula will continue to direct high cloudiness into Southern California. This, along with increasing onshore gradients, will lead to a bit cooler weather this weekend. By Sunday, highs will be in the 50s in the mountains to the upper 60s to lower 70s across valley areas of Southern California. Dense fog can be expected during the overnight hours across the San Joaquin Valley the next 3 nights. Local west winds of 15-25 mph will be possible during the afternoon hours in the desert through Sunday. Similar northwesterly winds will be possible along the central coast. Early next week, a trough will head into the Great Basin which will cause north winds to increase Monday. Some gusts to 40 mph will be possible Monday and Monday night across the I-5 Corridor and portions of Santa Barbara County. These winds will turn northeasterly Tuesday, setting the stage for a dry, windy and warm pattern for Southern California. At this time, the strongest winds look to occur Tuesday through Thursday, with some offshore winds possibly lingering into the following weekend. A moderate offshore pressure gradient along with some upper level support may allow this offshore wind event to be stronger than the previous two which occurred recently. Temperatures next week will rise into the 80s in Southern California west of the mountains with minimum relative humidity (RH) dipping into the single digits. Poor RH recovery can be expected next week. No rain is expected.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2017-LAW-43477, 11/30/17, 1325 hours:** Yuba County Sheriff's Office requested assistance in locating a missing and presumed drowned victim on the Yuba River, below the Colgate Powerhouse. Nevada County and Placer County Sheriff's dive teams committed to the mission, scheduled for 12/01/17. The California National Guard will provide a helicopter for air search support. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2017-Inland-37776:** Two Air Monitors for Mariposa County (On Scene)
- **2017-Coastal-37716:** One Air Monitor for Humboldt County (On Scene)
- **2017-SOC-38645:** One California Department of Transportation Archeologist to support the Joint Field Office (JFO) from 11/13/17 to 11/28/17. In coordination with a Cal OES Senior Environmental Planner, the Associate State Archeologist will review Disaster Damage Descriptions for potential California Historical Resources Information System (CHRIS) requests and request CHRIS reports when necessary.
- **2017-SOC-41344:** Individual Assistance (IA) request for cache phones for each lead for the LACs/DRCs for the Governors Office to contact them
- **2017-IREOC-38682:** DTSC Hazardous Waste Task Force (Helena Fire)
- **2017-IREOC-38683:** CalRecycle Debris Management Task Force (Helena Fire)
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- **2017-Cal OES-38400:** One Air Quality E-BAM modem for Klamath (Del Norte OA)
- **2017-Cal OES-39160:** Communications Support for the Helena Fire, Trinity County
- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
